

ENVIRONMENTAL SYSTEMS CO.

A FIDELITY COMPANY

ABOUT OUR COMPANY

Environmental Systems Co. (ESC), A Fidelity Company, is a building-integrated systems contractor that helps facility owners and managers enhance building performance by planning and integrating intelligent building solutions.

ESC implements smart technology for sustainable operations, balancing energy use and occupant comfort from one seamless front-end interface. Our experienced technicians provide facility assessment, equipment installation, and on-site maintenance and support services to keep our customers' assets connected and operating at peak performance. Whether you require a turnkey solution or are seeking to replace or upgrade a specific component of your existing system, ESC has the expertise to deliver products and solutions that enhance and simplify facilities management.

BUILDING AUTOMATION SOLUTIONS

Integrated building automation services designed to improve system performance, energy efficiency, occupant comfort, & centralized facility control.

- Building Management Systems
- HVAC Controls Automation
- System Integration
- Building Analytics
- Energy Dashboard
- Direct Digital Controls
- Lighting Controls

MECHANICAL SERVICES

Comprehensive mechanical services focused on maximizing HVAC equipment reliability, comfort, efficiency, & long-term system performance.

- Heating System Repair & Installation
- Furnace Repair/Replacement
- Air Conditioning Repair/Replacement
- Indoor Air Quality Improvement
- Boiler Repair
- Heat Pump Repair
- Refrigeration Systems
- Mechanical Equipment Controls

ENERGY SOLUTIONS

Innovative energy solutions that help facilities reduce operating costs, improve sustainability, & optimize overall building efficiency.

- Air Compressor Energy Services
- Solar Photovoltaic Panels
- EV Charging Stations
- Advanced Lighting Controls
- Mechanical System Upgrades
- Energy Management Systems
- Pipe Insulation and Blankets
- Steam Trap
- Pipe Insulation and Blankets
- Steam Trap

AUDIO VISUAL SERVICES

Customized audio visual services & communication solutions that enhance collaboration, information sharing, & user engagement across facilities.

- Paging/Public Address Systems
- Videoconferencing Systems
- Interactive LCDs & Smart Boards
- Digital Displays & Monitors
- Digital Signage
- LED Video Walls
- Wireless Clocks
- Sound Masking/Absorption
- Microphones & Speakers

SECURITY SOLUTIONS

Advanced security services & monitoring solutions that help protect people, property, & critical operations through integrated technology systems.

- Intrusion Alarms
- Access Control Systems
- Video Surveillance Cameras
- Carbon Monoxide Sensors
- Visitor Management
- Critical Monitoring Systems

LIFE SAFETY SERVICES

Code-compliant life safety services engineered to support early detection, rapid communication, & emergency response readiness.

- Fire Alarm Systems
- Emergency Responder Radio Coverage Systems (BDA)
- Vesda Systems
- NFPA Life Safety Test & Inspection Services
- Mass & Emergency Communications
- Air Sampling & Gas Detection

CONTACT US

Contact ESC today to learn how our integrated services and solutions can help optimize performance, enhance safety, improve efficiency, and simplify facility management for your building.
